Protecting Your Future Today New Rates

Due to recent wholesale monitoring rate increases – we regret that the following rate increases must occur. We have always strived to keep costs low and to be competitive with other alarm companies who require long-term and complex contracts. We are proud of the fact that since 1999, only one other price increase occurred in 2006, nine years ago. Effective November 1, 2015 (Oct 15, 2015 billing cycle), rates will be:

Monitoring Paid Monthly

\$31.95/month

Monitoring Paid 6 months in Advance

\$179.70 (\$29.95/mth)

Monitoring Paid 12 months in Advance

\$335.40 (\$27.95/mth)

If you are currently billed monthly and wish to take advantage of discounted rates, just send in the amount for the plan desired and we will update your billing.

(Accounts not paid current by the 1st of the month immediately following the 15th billing date are subject to the \$10 late fee.)

Are You Switching Your Phone Service?

Many customers are changing from land based home phones to IP phones or internet phones. Please remember when using those services that additional equipment may be necessary for your alarm to function properly. Please call our office before subscribing to those services.

Has Your Phone Number Changed?

If your phone number or any of your listed contacts have changed telephone numbers, please notify us so that changes can be made on your account.
